# TOP 5 FACTS

## Flexible in shape and in use

Flexible and practical, the XD Design Flex Gym bag is the first business backpack and gym bag all in one. Quickly convert this backpack from business to gym style, just expanding the front pocket, from 16 to 24 Litres. You can also carry your professional items in the main compartment and carry your gym necessities in the front pocket.

## Anti-theft

The anti-theft design with no front access, hidden zippers in the main compartment will assure that you carry your professional devices securely, and on the RFID protected pocket on the back you can safely store your wallet, cell phone or credit cards.

## Integrated USB charging port

Fast USB charging port on the shoulder strap. Simply connect it to a powerbank inside the bag to charge your devices.

\*powerbank not included.

## Water repellent

The Flex Gym bag has a water repellent coating. Don't worry about a light rain shower or accidental spillages, the water can't easily penetrate the material, keeping your belongings safe.

## Made from recycled materials

Made from RPET materials and Aware technology - using 52 recycled water bottles that would end up in landfill or oceans and saving 31 litres of water during the production process.
